SUBJECT : **Launch of New Pages platform**

DATE : **12 July 2024**

The Interactive Learning Center Diliman (ILCD) will launch a **New and Updated Pages** web app on **July 26, 2024**. Pages is a free, easy-to-use, do-it-yourself platform for the creation and maintenance of online sites for UPD units and projects as well as for profiles of UPD faculty and researchers. It seeks to fill the gap between well-developed UPD websites and outdated (if not abandoned or non-existent) sites of certain UPD units, projects, faculty, and researchers.

The new pages platform will be accessible again on July 26 through: <https://pages.upd.edu.ph/>. Please note that you have to login using your official email address (@up.edu.ph) to be able to access the platform.

The following changes have been made to improve your experience:

- Switched from OpenScholar to Wordpress
- There is now a feature to track user's activities and revert any changes made.
- Accidentally deleting blocks is no longer a problem.
- A lot more plugins and themes to choose from.
- Effortless Drag-and-Drop: Build your website visually with the drag-and-drop interface. Simply drag elements where you want them, and watch your website take shape.

- Flexible Building Blocks: Choose from a library of pre-designed blocks for various functionalities like text, images, galleries, and more. Customize them to match your unique style.
- Seamless Content Management: Edit and manage your website content with ease – no coding required!

The current pages sites will be relocated at <http://old-pages.upd.edu.ph/>. In case you want to migrate your current website into the new pages website, ILCD can assist you.
